

## Case Study 3

# Nerul Police CCTV Surveillance Maharashtra

### Current Challenges

Crime detection and gathering evidence for prosecution became a serious challenge for Nerul police Station in Navi Mumbai district. The steady increase in crime over years posed serious concerns to the Nerul residents. As the complaints zoomed past a record high, the local administrators and leaders were questioned by the media and pressure was high to bring in a permanent solution in reducing the crime rate.

---

## **The Need**

Having an immediate solution of setting up IP based CCTV Camera surveillance system, Nerul Police approached One Touch Infratel to execute the next-generation surveillance network having ability for night vision and face detection.

## **Solution Provided**

One Touch Infratel installed 25 IP-CCTV cameras with high resolution night vision lenses, capable of zooming into any person's face or vehicle number plates.

## **Summary**

Armed with the Camera surveillance system the crime rate dropped dramatically in Nerul Police station jurisdiction and many criminals were brought to justice with evidence. Today Nerul's residents have a sigh of relief and feel lot more safe having a peaceful sleep at nights. Motivated with the success, the Commissioner of Police Navi Mumbai has proposed to set-up a similar IP based CCTV Camera surveillance system for the rest of the police station in Navi Mumbai district with the help of One Touch Infratel.
